📍 Lahore, Pakistan

Education

BS. Computer Science (Continue) (2020 - 2024)

University of Engineering and Technology Lahore, Pakistan

About Me

I am a quick learner with problem-solving skills and a natural aptitude for coding. I have a good hold of programming fundamentals and am proficient in languages such as Python and C#. I am also familiar with web development technologies such as MERN, MEAN stacks and mobile applications development using technologies such as Flutter. I have also played a role of team lead several times during term projects.

Career Objective

As a programming student with fresh skills and a passion for technology, I am seeking an opportunity to work with a dynamic company where I can apply my skills and gain hands-on experience in the field of programming. I am eager to work with a team of experienced professionals, and enhance my abilities in various programming languages.

Experience

As an udergraduate I have gained experiece by working on term projects on different technology stacks. I have also gained some working experience by doing freelancing.
